The Dynaudio Evidence Master

The watermark in the evolution of dynamic loudspeakers: The Evidence Master. Myth and reality, illusion and truth - the Evidence Master represents a milestone in state-of-the-art loudspeaker technology and has justifiably achieved its reference status worldwide.

The innovatively unique Evidence concept attained new levels of performance in sound authenticity through advanced technology and cabinet design. The Evidence Master personifies sound perfection at its absolute finest.

The Evidence Master is symmetrically comprised of three separate but precision-interlocking cabinet modules: two bass enclosures built from HDF and a CNC cut mid/high frequency module of non-magnetic cone block aluminium.

The bass modules are exquisitely finished in fine Rosewood or Bird's Eye Maple natural wood veneer, while the side panels of the mid/high frequency module are graced with a lavish piano black lacquer finish painted by the masters at Steinway.

The combination of high mechanical precision, innumerable electromechanical details, and the most advanced transducer technology leads to a most impressive total result in the Evidence Master.

The level of realism in soundstaging, imaging, accuracy, dynamics and the general emotion it conveys and no other speaker previously produced could offer renders the music as the Evidence of its perfection.

Technical Data

Sensitivity	92 dB
IEC Long Term Power Handling	600 Watt
Impedance	4 Ohm
Frequency Range	27 Hz – 26 kHz
Internal Cabinet Volume	106 Litres
Principle	3 Way Bass Reflex
Crossover Frequencies	400, 2500 Hz
Weight	135 kg
Dimensions (W x H x L in mm)	240/450 x 2050 x 580
