The Dynaudio Evidence Temptation

The Evidence Temptation brings the most advanced Dynaudio technologies developed for the Master into a more simplified construction.

The Temptation delivers musical truth and pure emotion in much the same manner as, and benefits from the advanced technology that was developed for and implemented into, the Evidence Master.

The sound quality achieved by the Evidence models owes great debt to the innovative DDC (Dynaudio Directivity Control) technology developed by Dynaudio. No other loudspeaker concept has achieved this level of sound quality at the listening position - allowing the Temptation to perform completely independent of the room's acoustics.

The DDC symmetric driver array and crossover topology minimizes vertical reflection, enabling a true rendering of the passage being reproduced, one free of room induced colorations or distortions. The Evidence Temptation simply transcends the media to deliver the pure emotion of the art form, which it is so faithfully able to reproduce.

Technical Data

Sensitivity	90 dB
IEC Long Term Power Handling	500 Watt
Impedance	4 Ohm
Frequency Range	29 Hz – 25 kHz
Internal Cabinet Volume	64 Litres
Principle	3 Way Bass Reflex
Crossover Frequencies	500, 2300 Hz
Weight	113 kg
Dimensions (W x H x L in mm)	210/390 x 1933 x 490
