The Dynaudio MC 15

With Dynaudio Multimedia the fourth Dynaudio product segment is added to Hi-Fi and Home Theatre loudspeakers (Home Systems), studio monitors (Professional) and car speaker systems (Automotive). Dynaudio Multimedia defines a new standard of sound quality in multimedia applications.

For the first time the unique Dynaudio technology and Dynaudio sound quality is available for Office-, Creative-, Gaming- and Portable Audio.

Listening to music in its full splendor, playing video soundtracks and audio files in flawless perfection, experiencing gaming with an exciting three-dimensional soundstage, and bringing convincing sound quality to computer media: The innovative Dynaudio sound technology incorporated into the MC 15 takes Multimedia to a new, higher level of performance.

The MC 15 is thus no ordinary Multimedia loudspeaker. It is indeed much more: It is a new MP3 player, a new gaming console, a new workstation. Simply mating the Dynaudio MC 15 to existing equipment will yield a most astonishing upgrade that will allow the maximum sound quality potential of any software or hardware to be truly heard and experienced for the first time. To achieve even more impressive deep bass output, the optionally available Dynaudio Sub 250MC subwoofer may be added to provide extreme low frequency extension.

Creativity, gaming and even business work, all receive new passion.
The MC 15 - High Definition Multimedia Sound.
